GOVERNMENT SCHOOL OF COMMERCE, CALICUT.

First admission, at a special rate this year, is
closed.

The school re-opens on the 15th June 1928 after the summer recess.

Admission—Admission is generally open only to those who have at least been students of the Fifth Form for a full year in a recognized high school. This is generally the minimum general education qualification necessary for admission into the school. A fair knowledge of English, at least such as that ordinarily possessed by a qualified Secondary School-Leaving Certificate holder, is necessary to undergo the course with profit. The higher the general education qualification, the greater of course, will be the benefit derived from the training given in

the school, and the capacity to utilize that training to advantage.

School fee.—Burses is a subject per term, except for typewriting, payable in three equal instalments in the months of January, February and March for the first term, and in June, July and August for the second. The fee for typewriting is Rs. 15 per term payable quarterly. The same rate of fee is charged for both the grades.

Subjects and Classes.—In the English Department, instruction is given in the following six subjects and the students are prepared for the Government Technical Examinations of the Lower and Higher grades in each—

- (1) Book keeping.
- (2) Theory and Practice of Commerce or Commercial Law and Practice.
- (3) Marketing with Economics.
- (4) Commercial Geography.
- (5) Elementary (Practical) system.
- (6) Typewriting.

Each of the grades in a subject generally takes a year.

Time table.—The timetable is so arranged as to enable a beginner to take up almost all the subjects taught in the school in one and the same year.

Students of the typewriting class are divided into batches, each batch getting an hour's practice every school day.

The class is held from 7-45 to 10-45 a.m. and from 3-30 to 7-30 p.m. The other classes are held from 7-45 to 9-45 a.m. and from 4-30 to 7-30 p.m.

Almost all the classes are held both in the morning and evening hours to afford convenience specially to students of day schools and employees in office to join the school.

Examinations.—The Government Technical Examinations in all the subjects under 'Commerce' are held in the last week of December, every year, and the school closes immediately thereafter for the Christmas vacation but re-opens early in January. The examinations in Bookkeeping and Typewriting are held in April also, immediately after which the summer vacation begins. The school will re-open about the middle of June after mid-summer. Those that wish to begin the study of Commercial subjects will, therefore, ordinarily be admitted in January every year; and such students must join early at least before 15th of the month.

As a special case beginners will be admitted in June this year in all the subjects and they will be prepared for the regular November examinations, in the lower grade. Of course, those who have already had a course of training for a year or so will be prepared for the higher grade examinations in all the subjects. Fresh admissions in Bookkeeping and Typewriting will be for the lower grade examination of April 1929.

N.B.—It is specially pointed out that beginners as well as others must get themselves admitted at least before the 20th June 1928 in which date regular classes are expected to begin work.

CULTIVATION STATEMENT—APRIL 1921 TO
FEBRUARY 1923

[On an average of the five years ending 1922-23, the area sown from April to February represents 84 per cent of the cultivation on dry lands and 67 per cent of the cultivation on wet lands.]

General.—February was generally characterized by bright weather. There was light showers in the South in the first week of the month and food rains in the Nilgiris in the second week.

Irrigation water was generally ample in the north except in the Cauvery, Kolli, Chingleput, Tanjavur, and Malabar.

February is not an important sowing month. Second crop paddy was transplanted as sown in the month in Golluram, Kotes, Nilgiris, Chingleput, North Arcot, and Chittoor. Late sowing was seen on wet lands in parts of the Cauvery, and

South Arcot. Ragi was sown in parts outside the South and groundnut under wells in North Arcot and Chittoor.

2. *April to February—Seasons*.—(a) *Dry land*.—The area was four per cent more than the average and nine per cent more than in the last year. There were slight reductions in area in Kotes and South Kanara and general increases in most of the other districts, especially in Golluram, Tanjavur, Coimbatore, and the Central districts except Coimbatore.

(b) *Wet land*.—The area exceeded the average and last year by about five per cent. There were reductions in area in Nilgiris, the Cauvery delta, Kolli, and South Kanara and general increases in most of the other districts, especially the Cauvery, Amalapur, South Arcot, Chittoor, Salem, and Malabar.

3. Figures by districts are given in the statement appended.
